

# Formula 41 PC

1996-2004

Flagship of the Formula fleet for several years, the 41 PC is a well-engineered express cruiser with the precise handling and quality construction typical of Formula products. This is a big boat inside and out, and a long foredeck and shapely profile make her a standout in any marina. The midcabin accommodations of the Formula 41 are impressive indeed with staterooms fore and aft and a long salon with room for a crowd. There's a separate stall shower in the double-entry head, a big galley with plenty of counter space, excellent storage, and a walkaround island berth in the forward stateroom. Outside, the cockpit is arranged with a doublewide seat at the helm and a U-shaped settee aft that converts into a huge sun pad. The lounge seat opposite the helm can be raised hydraulically to expose a big storage compartment below. A walk-through in the windshield provides access to the foredeck, and hydraulic rams lift the entire cockpit sole for engine access. Running on a deep-V hull with prop pockets, 8.2L gas engines cruise at 16–17 knots (high 20s top), and 450hp Cummins diesels cruise at 24–25 knots (about 30 knots top).

## Specifications

Length Overall.....	43'1"	Fuel, Gas .....	300 gals.
Hull Length .....	41'0"	Fuel, Diesel.....	350 gals.
Beam.....	13'6"	Water .....	81 gals.
Draft.....	2'9"	Hull Type.....	Modified-V
Weight.....	18,520#	Deadrise Aft .....	18°
