Mainship 34 Motor Yacht

Mainship engineers went all-out with the 34 Motor Yacht in an effort to create the interior volume of a 40-footer in a 34-foot boat. Built on a solid fiberglass hull with a wide beam, this moderately priced family cruiser is aimed at those who want the absolute maximum living space possible in a small motor yacht. Not only are double berths found in both staterooms, but both heads have separate stall showers—no small feat in a boat this size. Not surprisingly, the salon dimensions are very modest, although the wide beam and the absence of wide side decks provides a good deal of width. Note that the engineroom, accessed via hatches in the salon sole, is a tight fit. Topside, lounge seating surrounds the center-console helm, and a walk-through in the forward bridge coaming provides easy access to the foredeck. Additional features include an aft deck wet bar, hardtop, molded steps to the bridge and swim platform, molded-in side boarding steps, and a radar arch. No award-winner when it comes to sex appeal (or performance, for that matter), standard 320hp gas inboards cruise the Mainship 34 MY at 15 knots and reach a top speed of 26–27 knots. This was a very popular model for Mainship.

Specifications

Length w/Pulpit	36'5"	Fuel	300 gals.
Hull Length	34'6"	Water	70 gals.
Beam	13'8"	Waste	30 gals.
Draft	3'2"	Hull Type	Modified-V
Weight	18,500#	Deadrise Aft	16°
