Silverton 34 Convertible

Silverton offered one 34-foot convertible or another in their line-up going back to the late 1970s. This was the final version, a stylish flybridge cruiser that most agree was a lot of boat for the money. With nearly 14 feet of beam, this 34 is a more spacious boat than any of her predecessors. The extra volume is especially noticed in the salon where Silverton designers were able to find room for a dinette in addition to an entertainment center aft and starboard-side sofa. The large galley includes an upright refrigerator as well as Corian counters and generous storage. Forward, an angled double berth is found in the master stateroom, while the small guest stateroom is fitted with over/under single berths. To save space, the head is split with the shower stall to starboard. The Silverton's interior is tastefully appointed with cherry cabinets, vinyl overheads, and earth-tone fabrics. A transom door and in-deck fish box were standard in the small cockpit, and molded access steps lead up to the flybridge. (Note that bridge overhang shades the forward part of the cockpit from the sun.) A modest performer with 330hp gas inboards, the Silverton 34 will cruise at 16 knots and top out at just over 20 knots.

Specifications

Length	37'7"	Fuel	286 gals.
Beam	13'10"	Water	94 gals.
Draft	3'3"	Waste	37 gals.
Weight	18,550#	Hull Type	Modified-V
Clearance	12'7"	Deadrise Aft	12°
