THE BAHAMAS

DAY 1

HIGHBOURNE CAY - NASSAU

Nassau, the capital of The Bahamas, has the excitement of a big city and the ease of a tropical island. The bustling city is filled with lots of culture and modern amenities. There are endless things to do with all the beaches, resorts, restaurants, shops, nightlife, a golf course, an aquarium and a casino. Next stop Highbourne Cay! Highbourne Cay is known worldwide as the gateway to the ultimate ephemeral islands and home to the indigenous rock iguanas. Your journey to 'destination relaxation' has begun! With a multitude of suggestions, Your Denison Charter Specialist is certain you'll find the magical ending to each day. Welcome aboard!

DAY 2

NORMAN'S CAY

This notorious cay is nestled in the northern most part of the Exuma chain, located just 220 miles southeast of Miami. The conditions are perfect for all your favorite water sports and activities. But if you're in the mood for maximum relaxation, this is a prime location for sundrenched leisure.

From 1978 to around 1982, Norman's Cay was a popular drug smuggler's hotspot. The remains of a plane crash on the southwest point attract tourists and snorkelers from all over the world. The sunken ruins create the scene for an underwater adventure surrounded with an array of colorful tropical fish and vibrant coral. There are plenty of seashells to collect as you stroll along Twinkie Beach, home of the lone palm tree. Once you've worked up an appetite you can visit MacDuff's famous beach club, serving some of the most exquisite and fresh dishes in the Exumas.

DAY 3

SHROUD CAY

Part of the Exuma Cays Land and Sea Park territory, Shroud Cay is an uninhabited archipelago of rocks and beaches that boasts an enchanting channel of mangroves. The sheltered coves serve as an ideal home for conch, lobster, sea turtles, and other various marine creatures, making this the perfect place to go diving and snorkeling.

Shroud Cay is home to the “Washing Machine”, a natural lazy river that sends you spinning from one side of the beach to another side. It’s a theme park designed by mother nature herself! There are numerous sandy-bottom creeks and estuaries to explore, and Camp Driftwood Beach offers a lovely lookout point where it feels like you have a deserted island all to yourself.

DAY 4

WARDERICK WELLS

Warderick Wells serves as the headquarters of The Exuma Cays Land and Sea Park and is very popular for the skeleton of a 53-foot Sperm Whale which died in 1995 after swallowing a plastic bag. This is definitely something you have to see for yourself! If you're looking for some privacy, there are 20 secluded beaches located throughout the island's border.

Warderick Wells is the largest underwater marine park in the Bahamas, diving and snorkeling comes highly recommended! It is also the perfect place to head up one of the many marked hiking trails which lead to Boo Boo Hill, the highest point on the island, where visitors often will bring a piece of driftwood with the name of their boat carved on it as a tribute to the gods.

DAY 5

STANIEL CAY

Explore untouched beaches and lose yourself in the elegant paradise of Staniel Cay. Enjoy snorkeling and diving at James Bond's famous "Thunderball Grotto"- a hollowed-out cave, filled with a thousand colorful fish. Climb to the top for an amazing view, then take a deep breath and jump through the hole for an extra thrill. Once you're in, feed the fish from your hand and surround yourself in a kaleidoscope of tropical ambiance.

Rent a golf cart at the marina if you wish to explore more of the island coves by vehicle. Take a tender ride to Sampson Cay, where the tidal flats that dry at low tide are one of the most picturesque locations in the Bahamas. Visit the Staniel Cay Yacht Club to enjoy an elegant dinner onshore at this charming harbor full of life and island flair.

DAY 6

BIG MAJOR CAY

Big Major Cay, also known as Pig Beach is an uninhabited island that takes its 'unofficial' name from the fact that it's populated by a colony of feral pigs that have learned how to swim. If you are offshore, the pigs will most likely swim out to you and if you go close to the shore Aqua Pig and the gang will probably try to jump aboard and eat your lunch. It's unclear how the pigs got there, some believe they survived a shipwreck and others believe that sailors left them there for a future meal and never returned.

Ease yourself into island life by sunbathing on the fine white sand and swimming in the mesmerizing turquoise waters! Take the opportunity to try out the water toys on board or perhaps venture out to sea for some deep-sea fishing.

DAY 7

HIGHBOURNE CAY

The friendly dragons of Highbourne Cay welcome you back and are deeply excited to see what you do next. Today you can indulge in some fishing, snorkeling, water sports or visit one of the elegant restaurants with a 360-degree view.

Dive in and explore the Bahamian stromatolites which are living relatives of Earth's oldest reefs. They are the only known examples of present-day stromatolites growing in open ocean conditions, equivalent to those of 1 to 2 billionyear- old.

Make the most of the little pleasures, take a stroll along any of the 8 deserted beaches and feel the soft white sand under your feet, read a book, have a dip in the water, or do nothing at all. With clear skies, do some stargazing from the privacy of your yacht for a magical end to the day.

DAY 8

NASSAU

Glistening streets and white beaches welcome you back to the city of Nassau. The James Bond theme gives Nassau an edge of mystery and excitement, that should be shaken, not stirred. The rich culture and colonial architecture will certainly make it hard to leave today, but take it all in and start planning your next adventure with Dension Yachting soon!

****The proposed itinerary is just a suggestion. The beauty of a private charter is the ability customize your adventure.*
