## 61' Tollycraft *Alexandra*

Have you ever considered the pride of owning a spectacular classic yacht design but did not want the expense or lengthy time involved in a refit? If the answer is yes, then you may have just found your next yacht. The 61 Tollycraft *Alexandra* has had only two owners in her entire history, both of which have kept her at the pinnacle of excellence. In recent years this yacht received approximately \$450,000 in refit services including updates to the interior, appliances, electronics, and soft goods, new "Flag Blue" hull Awl-Grip paint, rebuilt main engines, new generator, and more.

This classic Ed Monk hull was designed to take you and your family in comfort and safety on long range extended cruises. The *Alexandra* is the real deal in the world of cruising yachts.

An American Yachting Family Since 1948

SELENE OCEAN TRAWLERS Selenes represent the strongest and most capable ocean-going trawlers in the world. Selene Yachts are built with the strength of a large ship, and the comforts and finishes that rival the finest megayachts on the water. You've never seen an interior so pretty on a boat with a bulbous bow. We promise. Contact Kevin Frawley to learn how Selene represents the finest, safest, and most comfortable ocean trawlers the yachting industry knows.

BENETEAU SWIFT TRAWLERS Speed. Isn't that the point of owning a fast trawler? Other trawlers may deliver speed through sheer brute force, but a Swift Trawler achieves its pace through the perfect marriage of brains and brawn. The end result is speed that's a joy and oh so easy to live with. 1 gallon per nautical mile at WOT. Call Swift Trawler Specialist Andrew Parkinson to arrange a private viewing on the complete Swift Trawler range at our corporate docks in Fort Lauderdale.

AUSTIN PARKER The yacht everyone in Europe is buzzing about has finally arrived in the States. The 42' Austin Parker is everything you hoped an Italian Lobster Boat would represent. She handles the open ocean with grace. She turns heads at every harbor she enters. She's the kind of boat that makes a statement without even trying. Call Austin Parker Specialist David Johnson to learn why we believe the entire range of Austin Parkers will change everything.
